

Dear Students

Now the final exams for the Autumn term are approaching and lately most student in MH have had a full schedule. The first exam will be on December 2nd. We want to encourage you to take your studies seriously during these last weeks and do your best. Remember to put your studies in first place and do not forget the importance of a healthy nutrition and a good night sleep.

There are always some students that need specific measures during exams and we will try to fill those needs. In MH it is possible to ask for permission to take an exam in a class room rather than in the hall. Students who have dyslexia can ask for colored exam sheets or for having the exam on an audio file. This will be available to those who have a diagnosis of some kind, if you have a medical certificate from a doctor / psychologist or if you have had regular contact with MH's school counselors.

There is no need to apply for a longer exam time, only colored sheets, reading or a class room (12 students per class room instead of being in the hall).

Applications for specific measures need to be made with the school counselor before November 15th. For further questions contact the school counselors of MH.

Best regards,

Fríður, Sigga Birna and Ásdís,

school counselors in MH.
